Education

- IUPUI: School of Informatics and Computing - Graduation May 2022
 - Bachelor's of Science in Informatics and Media Arts and Science - 3.77 GPA

Experience

- Nextech: June 2017-July 2017
 - Used HTML, CSS, and JavaScript in order to make a portfolio website.
 - Participated in various college and industry visits.
- Cummins Corporation: June 2018-August 2018
 - Went through a company-specific training program for the purpose of getting acquainted with the inner workings of tech companies as a whole.
- Tutor for Informatics courses at IUPUI. September 1 2020- current
 - Introduction to Informatics- course about basic HTML, CSS, and JavaScript.
 - Mathematical Foundation of Informatics- course about logic.
- Techpoint SOS Challenge: June 2021-July 2021
 - Worked collaboratively with teammates for 6 weeks to create an application.

Projects

- Cyberbullying website
 - Used HTML, CSS, and JavaScript to visualize a data set based on bullying.
- Eventsy
 - Our instructor gave us an xd file for a website called eventsy and for our final we were to recreate it. Done with HTML, CSS, SCSS, Javascript, and jQuery
- Cubby
 - This application was intended to give a more intuitive and simple platform for students and teachers to have an overall better online learning/teaching experience. Students and teachers would be able to share resources they found helpful. Teachers would be able to upload assignments as well.
- Vue website
 - Created an application with Vue to display information from a JSON file about video game characters

Accolades

- A part of LiFT Scholars, which is funded by the National Science Foundation.
- On the dean's list for Freshman, Sophomore, and Junior years.

Skills and Knowledge

- HTML, CSS, SCSS, JavaScript, jQuery, PHP, SQL, some Vue
